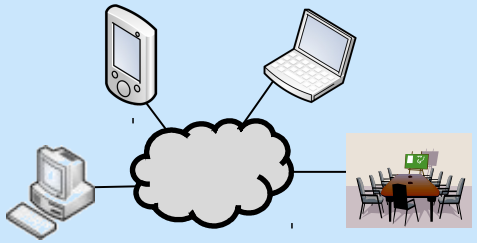
Integrated Service



Target Initial Availability 3Q FY11

- Increased Support for Net-Centric Operations
- Improved Interoperability

- Improved Performance
- Reduced Training Required
- reduced Support Costs

Way Ahead

- Net-Centric Enterprise Services is looking for industry partners' support to implement DoD/IC enterprise services:
  - Assist Programs of Record in the incorporation of enterprise services
  - Utilize DoD/IC specifications, reference implementations, and compliance toolkits
  - Share best practices and lessons learned
- Next challenge will be to federate enterprise services across strategic, operational, and tactical operational
